

Australian **LEADERS**

**IN THE SUPPLY AND MANUFACTURE
OF FIBREGLASS CHEMICAL TANKS**

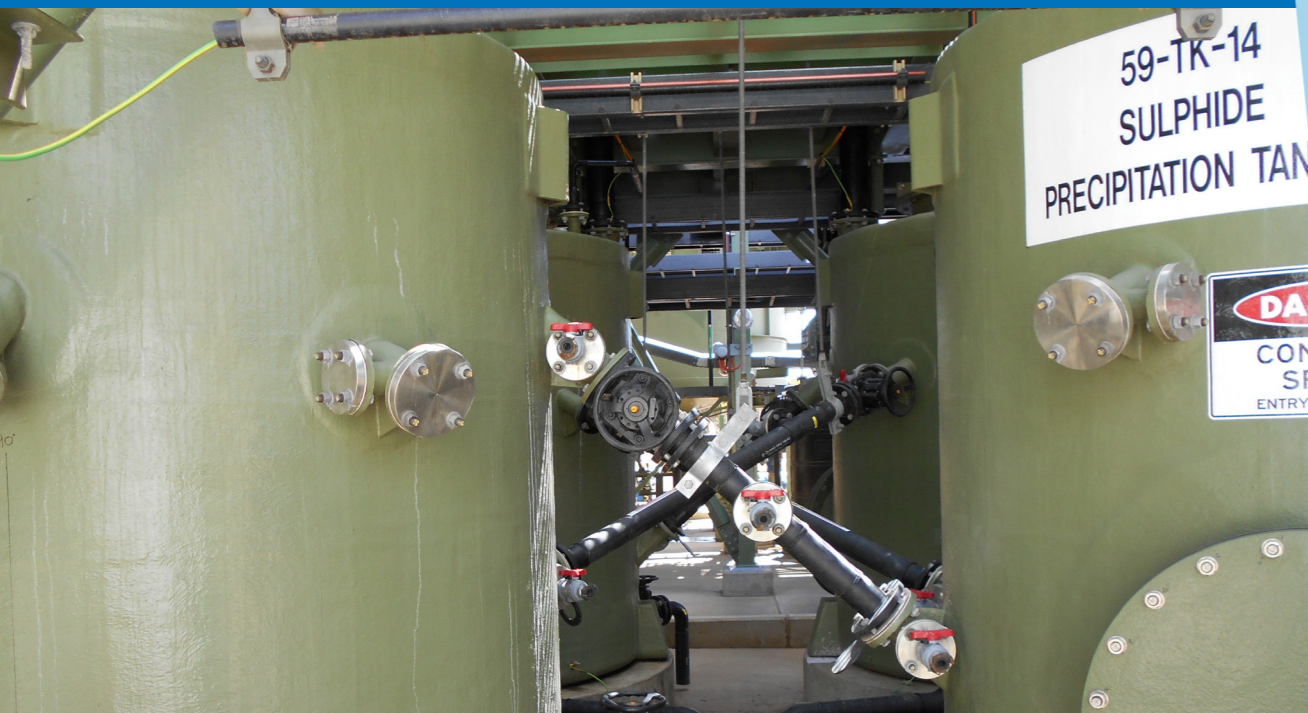

GRP 

CUSTOMISED & SECURE FIBREGLASS CHEMICAL STORAGE

Solutions

GRP Tank Solutions are Australian leaders in the supply and manufacture of FRP storage tanks for the Industrial chemical and waste water markets with a 30-year track record in providing proven, custom built solutions to major clients built to current Australian, European and American standards.

Our Fibreglass (FRP) units provide the latest technology for quality, lower maintenance costs, longer life and corrosion protection even subjected to the most aggressive environments. As an Australian owned and operated company, we offer a range of above and below ground Fibreglass (FRP) systems to assist in managing your chemical storage needs. Each product is tailored for specific site conditions rather than a "one size fits all" standard solution.

INDUSTRY SECTORS INCLUDE

HEAVY INDUSTRIAL MINING, OIL AND GAS & POWER STATIONS

- ✓ Vertical Chemical Tanks
- ✓ Vent Stacks
- ✓ Pipes and Ducting

WASTE WATER

- ✓ Odour Control Units to protect against filtered toxic gas
- ✓ Chemical dosing tanks for Sodium Hypochlorite

CHEMICAL PROCESSING & MANUFACTURING FACILITIES

- ✓ Chemical Plants
- ✓ Chemical scrubbers
- ✓ Landfill Leachate run off containment
- ✓ Aircraft hangar - aqueous-film forming foam (AFFF) runoff containment

Medical centres, laboratories and manufacturing facilities remove chemical and biological contaminants on personnel, clothing, equipment, floors and other surfaces. Our corrosion-resistant drain-collection and decontamination tanks securely store washdown.

TANK MODELS

- ✓ Single-wall or double-wall
- ✓ Underground or aboveground
- ✓ Horizontal or vertical
- ✓ Underground capacities up to 500,000L (in some locations)
- ✓ Aboveground capacities to 75,000 liters

BENEFITS OF GRP FIBREGLASS CHEMICAL TANKS

- ✓ Corrosion-resistant inside and out
- ✓ 100% premium resin and fibreglass (no fillers)
- ✓ Resin choice to fit the chemical and corrosion characteristics of usage
- ✓ Lightweight and easy to install
- ✓ Variety of accessories available
- ✓ Supply Australia wide with manufacturing sites in WA and NSW
- ✓ Designed and constructed to: AS2634-1983, BS4994-1987, & ASME RTP-1 – 2011

YOUR COMPLETE *Solution*

GRP can provide a complete solution for your project's storage tank needs. They can be fitted with a full range of fittings and accessories to suit all requirements such as flat or cone roof, top or side access manways, flange, socket fittings or pipe fittings, hold down lugs, pipe supports, baffles.

PROVEN PERFORMANCE

The advanced corrosion resistance of GRP tanks and the experience built up over 30 years in the industry means our chemical storage tanks stand the test of time with many large repeat clients such as BHP, Alcoa, Ixom and many major water authorities.
